

Home Learning Autumn 1

Year 3

English – Writing/ SPAG (Core)

The children will bring home a set of spellings in their homework folder, **every Thursday** to learn. The children will then be tested on these on the following Thursday. The children should not only know how to spell the words, but understand what they mean.

English – Reading (Core)

The children will always have a reading book to bring home. The children should be reading **at least 3 times a week** (this can be independently or with an adult), thinking about sounding out the words but also trying to understand what they are reading and discussing what they have read. This will be checked every Friday.

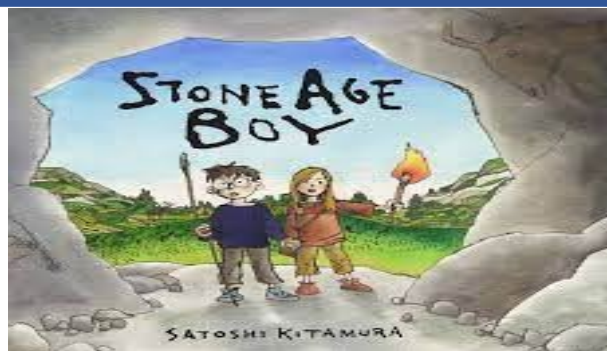

Mathematics (Core)

The children will be learning their 2, 5, 10 and 3 times tables at school. By the end of the year children should know these and the relate division facts off by heart. These will be tested **every alternate Friday**. Maths homework related to these times tables will go home in their homework folder, **every Thursday** to learn.

Science

In Science this half term we will be learning about **rocks**. Can you research from home about **metamorphic rocks, igneous rocks and sedimentary rocks**? How are these three different types of rocks made? Can you draw a picture to show how each rock type is made? Rock scavenger hunt: How many different rocks can you find around your house, look on your roof, bricks, outside, at any tiled floors or statues.

Remarkable Rocks!

History

In History this half term we will be learning about **The Stone Age to the Iron Age**. Can you watch the videos on class Dojo or do your own research from home about how people in the Stone Age lived? How was life different in the Stone Age to now? Create a poster to show the information that you have found. Can you make a Stone Age dessert? Follow the instructions on Dojo and send in your photos.

Art

In Art this half term we will be looking at Cave Paintings in the style of prehistoric people. We will be visited by the artist Jeffrey Andrews to give us some fantastic ideas. Can you create a hand print by drawing or painting around your hand? Leave the hand white and colour in the background. If you are feeling messy, you can try and make your own paint using coloured fruits and vegetables like beetroots, spinach or oranges. You can also use spices, but make sure you ask an adult first!

- **You must complete** all the core activities above (Mathematics and English).
- The other suggested home learning activities are optional.
- We would love to see some of the projects that you have worked on at home when you have completed them! Either bring your project to school to show your class or pop a photo of it on Class Dojo.

Class Author

We are learning about the Authors Bethan Woollvin and Lauren Child. Can you find a YouTube video of one of their books being read? Retell the story to someone in your family. Which is your favourite book by these authors and Why? Can you find out any facts about either of these class authors?
