

Home Learning Autumn 2

Year 3

English – Writing/ SPAG (Core)

The children will bring home a set of spellings in their homework folder, **every Thursday** to learn. The children will then be tested on these the following Thursday. The children should not only know how to spell the words, but understand what they mean.

English

The children will always have a reading book to bring home. The children should be reading **at least 3 times a week** (this can be independently or with an adult), thinking about sounding out the words but also trying to understand what they are reading and discussing what they have read. Their reading records will be checked every Friday.

Mathematics (Core)

The children will be learning their 2, 5, 10 and 3 times tables at school. By the end of the year, children should know these and the related division facts off by heart. They can use TT Rockstars to help them learn their times tables. Maths homework related to these times tables will go home in their homework folder, **every Thursday** to learn.

Science

In Science this half term we will be learning about **soil and fossils**. Can you research from home about **soil formation** and the different layers? Draw and label the different types of soil? What sorts of animals and insects would we find in soil? Can you research what a fossil is and what sorts of things become fossilised? Draw me a picture of a fossil?

The Street Beneath My Feet.

Art

In Art this half term we will be looking at sculptures created by the artist Barbara Hepworth. Can you go on a sculpture hunt in Keighley? Can you find: Rombald the Giant in Airedale Centre, the gargoyles hiding on the roof of St Andrew's Shared Church or the Cenotaph in the centre of Keighley? Have fun exploring!
Can you make a sculpture at home? Use clean items that you would normally recycle (junk modelling).

- **You must complete** all the core activities above (Mathematics and English).
- The other suggested home learning activities are optional.
- We would love to see some of the projects that you have worked on at home when you have completed them! Either bring your project to school to show your class or pop a photo of it on Class Dojo.

French

In French this half term we will be using Games and Songs (Jeux et Chansons) to learn our numbers 1 – 12. Can you create your own game or song to remember our numbers 1 – 12? You could create a poster for the numbers 1 – 12 to display on your bedroom wall to try and memorise them?

Class Author

We are learning about the Authors Bethan Woollvin and Lauren Child. Can you find a YouTube video of one of their books being read? Retell the story to someone in your family. Which is your favourite book by these authors and Why? Can you find out any facts about either of these class authors?
