

Home Learning Spring 1

Year 3

English – Writing/ SPAG (Core)

The children will bring home a set of spellings in their homework folder, **every Thursday** to learn. The children will then be tested on these the following Thursday. The children should not only know how to spell the words, but understand what they mean.

English

The children will always have a reading book to bring home. The children should be reading **at least 3 times a week** (this can be independently or with an adult), thinking about sounding out the words but also trying to understand what they are reading and discussing what they have read. Their reading records will be checked every Friday.

Mathematics (Core)

The children will be learning their 2, 5, 10 and 3, 4 and 8 times tables at school. By the end of the year, children should know these and the related division facts off by heart. They can use TT Rockstars to help them learn their times tables. Maths homework related to these times tables will go home in their homework folder, **every Thursday** to learn.

Science

In Science this half term, we will be exploring light and shadow. Can you draw a poster of the different objects that are transparent, translucent and opaque? Can you take pictures of where you can see light and shadow? Can you create your own shadow puppets? How many different light sources can you find?

Roman Diary: Journal of Iliona

Geography

In Geography this half term, we will be looking at natural disasters. These include earthquakes and volcanoes like Mount Vesuvius. Design a poster to show a volcano's main features. Make sure you label its important parts!
Can you produce a fact file about the eruption in Pompeii? Please include a sketch map to show its location, a description of the eruption, an explanation of why it erupted, details about the eruption's impact.

- **You must complete** all the core activities above (Mathematics and English).
- The other suggested home learning activities are optional.
- We would love to see some of the projects that you have worked on at home when you have completed them! Either bring your project to school to show your class or pop a photo of it on Class Dojo.

French

In French this half term, we will be learning the alphabet along with the names for family, friends and pets. Can you create a French alphabet poster? Perhaps you could create a poster to remember the names of family, friends and pets. Use the French names for family, friends and pets when you are at home. Teach your family the French words that we have learned.

History

In History this half term, we will be looking at the Romans. Can you research five inventions that the Romans brought to Britain and we still use today? Draw a picture of the items that you find and label them.
Why were the Roman army so powerful? Research the Roman army. You could try making your own Roman shield using a cereal box or any cardboard you can find at home. Have fun!
