

Home Learning Summer 1

Year 4/5

English – Writing/ SPAG (Core)

The children will bring home a set of spellings **every Friday** to learn. The children will then be tested on these on the following Friday. The children should not only know how to spell the words, but understand what they mean and how they would be used in a sentence.

English

The children will always have a reading book to bring home. The children should be reading **at least twice a week** (this can be independently or with an adult), thinking about sounding out the words but also trying to understand what they are reading and discussing what they have read. This will be checked every Wednesday.

Mathematics (Core)

The children should know their times tables and division facts off by heart and at speed up to 12 x 12. These will be tested **every Thursday**.

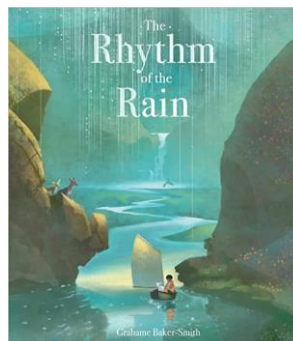

Additional homework related to the current maths unit may be given where the teacher sees a need.

Science

In Science this half term we will be learning about **States of Matter**. To deepen your knowledge and understanding, can you explore the web link? Perhaps you could create a poster about what you learn.

[States of Matter](#)

The Rhythm of the Rain

Art

In Art, we will be creating water lilies. Research the artist Claude Monet and create a fact file about him.

Geography

In history, we will be learning all about rivers. Research the River Aire and perhaps you could draw (or even paint) the river and label which areas it flows through!

- **You must complete** all the core activities above (Mathematics and English).
- The other suggested home learning activities are optional.
- We would love to see some of the projects that you have worked on at home when you have completed them! Either bring your project to school to show your class or pop a photo of it on Class Dojo.

Claude Monet Water Lilies
